NUMBER 13

This Week

by Arthur Brisbane
Don't Sell Wheat Short
Federal Control of Power
Memories Fade
Smallpox Also Marches

Uncle Sam buying wheat at a price above world market and storing it helps wheat growers of other countries, although that is not his intention.

What the wheat situation will be next July, nobody can guess. Wise gamblers will refrain from selling short. Uncle Sam's pocketbook is back of wheat prices in the United States, a new kind of "corner." Flour has reached its low price since the World War, \$3.60 a barrel, compared with \$7.30 a year ago, and \$18 a barrel, the peak price in war time. Good news for housewives. Bad news for farmers.

Senator Connors introduces a bill to regulate production, transmission and distribution of all classes of power in interstate commerce. He would let government supervise rates, and securities issued by holding companies.

Some say the people should have no control of power and its distribution, although power in national life comes next to food, water and air.

The people at least might supervise sales of securities. One company issued more than 60,000,000 shares of stock based on odds and ends of power companies. Foolish investors bought the pieces of paper, at a price exceeding fifteen hundred million dollars for the whole collection.

William Howard Taft, chief justice of the Supreme court, President of the United States, secretary of war, rode to his grave in Arlington cemetery on a gun carriage, the first United States President to be buried there.

A military funeral was, perhaps, not what he would have suggested, but he was entitled to it as former secretary of war and commander in chief of the army and navy.

Before burial, the body of the late chief justice lay in state for three hours in the Capitol, on a catafalque upon which had lain the coffins of Presidents Lincoln, Garfield, McKinley and Harding.

Now Lincoln stands out in that, or any list. How soon men become unimportant and are forgotten! Lincoln never.

Omibus and threatening for India is the beginning of Mahatma Gandhi's campaign of "no violence, but refusal to obey," against the British.

Gandhi and his followers march in protest to make salt tax-free, and smallpox marches with them. Three are dead, 22 prostrated by disease. The British have made a desperate fight against the various plagues in India, smallpox included, with the natives fighting against them.

It has never been possible to prevent natives from drinking the filthy Ganges, occasionally swallowing water upon which corpses are set afloat.

Under British rule the population of India has increased by 100,000,000. It would soon diminish under native rule, with the aid of smallpox and other plagues.

There is plenty of money in this country, the difficulty is to get it. Secretary Mellon needs \$450,000,000 for Uncle Sam.

The public offers to buy twelve hundred and ninety-one million dollars worth of treasury certificates. There is plenty of water in the oceans, lakes and rivers. The trouble is to get it on dry soil that needs it.

All doctors and parents will be interested in news of a "meningitis carrier," a nineteen-year-old youth, William Fehiker, in the reformatory for boys at Booneville, Mo.

Five superintendents and inmates with whom he came in contact died of meningitis, showing how easily the deadly disease may be contracted.

From Devil's Lake, N. D., comes the sad story of Sioux Indians that drank an antiseptic mixture for the sake of its alcohol.

It was the wrong kind. Jerome Onehouse, Mike Goodhouse and two other Indians are dead, three more expected to die. They drank "anti-freeze" at a dance, which adds a touch of sadness.

This small item of news interests managers and stockholders of railroad and steamship lines. An airplane driven by a Diesel engine flew from Detroit to Miami in ten hours fifteen minutes without stopping, with Oiler Engineer Woolson of the Packard company and Walter Lee, pilot.

And the trip cost for fuel \$3.50.

"Every sweet has its sour; every evil its good." Emerson said it. British Tories believe it. The attack on religion in Russia has created intense feeling in Britain. If Premier MacDonald's labor government refuses to break off relations with Russia, it will probably be driven from power.

Men and nations, with their radios, movies and other interesting things, may seem to lose interest in religion.

But such an attack as Russia makes on established beliefs shows that religion retains its hold on the human race.

POLITICAL PARTIES MAKE NOMINATIONS

The Republican and Democratic parties nominated candidates Monday evening for township offices. The former held theirs at the Court house and latter at the Town hall.

GRAYLING TOWNSHIP

Republican Caucus

M. A. Bates acted as chairman of the Republican caucus and, Emil Giegling as clerk. The chairman appointed the following tellers: Chas. Gierke, Roy Milnes and E. L. Sparkes. The following nominations were made:

For supervisor—Frank Barnett.
For clerk—Carl Sorenson.
For treasurer—Augustus Funck.
For highway commissioner—Albert Hoffman.
For justice—Philip G. Zalsman.
For justice to fill vacancy—Emil Kraus.

For member of Board of Review—Frank May.

1.—Dr. Frederick A. Cook, Arctic explorer, just released from Leavenworth prison, plans to begin a new life. 2.—Final resting place of William Howard Taft in Arlington cemetery, near tomb of Robert T. Lincoln. 3.—Kamaladevi Chattopadhyaya, noted female leader in the opposition to British rule in India.

For constables—Niels H. Nielsen, Fred Carr, James Reynolds, and Peter F. Jorgenson.

The following were elected township committee: Tony Nelson, H. Petersen and James McDonnell.

BORROWED CAR DAMAGED

The Essex coupe owned by Richard Kearns was badly damaged last Monday morning when two Standish boys, whose names are not known, took the car without the consent of the owner and went for a ride. Mr. Kearns had left his car parked in front of the hotel. All went well until the boys were returning to town and in attempting to turn off the paving at Chestnut St. just north of the hospital, owing to the speed of the car it turned over. The boys were not injured and ran away from the car before anyone could get to it. The Corwin garage was called to bring the wreck into town. We understand Mr. Kearns has his car covered by insurance which will enable him to have the car repaired.

MRS. WILLIAM F. BUTLER

1873-1930

Suddenly, and unexpectedly, on Friday, March 14th, the Angel of Death came to the new home in Dearborn Hills and claimed for his own the beloved wife and loyal life comrade of William F. Butler.

Mrs. Butler (nee Josephine Taylor) was a daughter of the late Adelbert and Mrs. Taylor, pioneer residents of Crawford county.

Born in Hastings, N. Y., October 19th, 1873, she moved with her parents to Grayling at the age of four years, and here attended the Grayling schools from which she graduated in 1892. After graduation, she taught school until her marriage to Mr. Butler in 1895.

Her early married life was likewise spent in Grayling, the newlywed couple residing at their home on Spruce Street until 1913 when they moved to Lansing and from thence in 1917 to Detroit. Seven months ago, they moved into their beautiful residence in Dearborn Hills, where they contemplated spending many happy years together.

To the union were born four children, two of whom died in infancy, LaVerne and Loraine, and two, Florence and William, Jr., who with their father live to mourn her sudden death. She also leaves to grieve her unexpected demise two sisters, Miss Florence Taylor and Mrs. George Darling, both of Grayling; two brothers, Floyd also of Grayling, and William H. of Detroit; a daughter-in-law, Mrs. William Butler, Jr., one niece, Miss Ethel Taylor, and one nephew, Alvin LaChapelle.

A short service was held at her late residence, March 17th, the Rev. Floyd Johnson, her pastor, officiating, and the remains were brought to Grayling for burial. A second service was held in the Michelson Memorial church Tuesday, Rev. Johnson bringing a tender message of comfort and Rev. J. W. Greenwood, the ministry of song.

Interment took place in Elmwood cemetery.

"For me to live in Christ, but to die is great gain" has become her personal experience fully realized.

ST. PATRICK'S DAY PARTY

Mr. and Mrs. Charles Corwin entertained the Ladies National League at their social party last Saturday evening. A real Irish dancing party was held. The house was artistically decorated in green, in keeping with the occasion. All the men wore green paper neckties and the ladies had hair bows and caps fashioned from green paper which added much to the merriment of the party.

A dainty lunch was served by the hostess and at a late hour the guests departed. Sure and we had a wonderful time "begorra!"

Defining the Soul

The soul, if it is not regarded as a little ghost, is the part of man which affirms the value of loyalty to that which is unseen.—Woman's Home Companion

G. POOR PICKS ALL-TOURNAMENT TEAMS

They are quite apt to be worthless, these all-tournament teams in general. They serve as a turning point for much argument by the "red-hot stove league" and settle nothing at all. Taken at their best they are only the opinion of one, or at most, of a few. All in all they are a bank, but here's another. Take it the hotel. All went well until the boys were returning to town and in attempting to turn off the paving at Chestnut St. just north of the hospital, owing to the speed of the car it turned over. The boys were not injured and ran away from the car before anyone could get to it. The Corwin garage was called to bring the wreck into town. We understand Mr. Kearns has his car covered by insurance which will enable him to have the car repaired.

Grayling dominated Class C. The Northern Lights romped over all opposition and the Grayling men claim the lion's share of the honorary positions as a matter of course and in spite of several good men on other teams.

At one forward Emory of Grayling must be stationed. He plays a steady game and is a valuable team man. He counts often from the field and would fit into any team in good shape. His place on this five is certain. Criske of Grayling wins the other forward post. He is a neat ball player and handled himself very nicely. His work stood out in the Grayling-West Branch battle, though he didn't have such a good night against Grayling.

Center goes to Harrison of Grayling, probably without any argument. He was the outstanding player of his position and had it over any of the rival centers by a wide margin. Certainly he must be selected.

The guards are harder to choose. Grayling showed fans three very capable men in the persons of Sheehy, LaGrow and Curnalia. West Branch presented Vogan, a capable guard and in Grayling had Cook who was an outstanding player on the northerner's team. Of them all, this selection will include LaGrow and Curnalia of Grayling, realizing that this choice will produce no end of discussion.

Both of these men are thorough masters of the technique of guard play and can be depended upon at all times. Although each of the other three men is capable and might easily be selected without slowing up yet this mythical five to any great degree yet these men have the call. They played outstanding ball.

A second team would comprise a greater variety of men, and if this five could be assembled would prove to be most dangerous. Sherman of Grayling would get a forward position, and have as his teammate Rose-brugh of West Branch. Both are steady and dependable. Erickson of Lake City would make an excellent pivot man, though Burleson of Grayling gave a good account of himself in the tournament and would serve almost as well. Erickson would have an edge in experience and dependability. Cook of Grayling and Vogan of West Branch draw the guard positions, though it's a hard matter to see just how Sheehy of Grayling can be left out. The latter is about as good a guard as any named on either team, yet he lacks the experience of Cook and Vogan and probably will

have to make way for his rivals.

Either of these teams would be tough opposition for any Class C aggregation. There was no team entered in the tourney which had the sustained scoring power of attack and defense of the Grayling entry and so it is that Grayling rather dominates the selections. There were few good men for forward berths, an outstanding center—and several good guards. Grayling had some capable performers. Lake City played in and out ball, sometimes flashy, again rather mediocre. West Branch was still in its slump and Smith, the star forward, counted only two points in two games.

In choosing the honor teams for Class D there is a greater selection. More teams competed, yet it was not difficult to pick out the outstanding performers. Whether you agree or not here's the selection.

McBain of McBain draws his forward berth without much debate. A clever shot and a hard worker, this boy deserves his ranking by all odds. Teamed with him is L. McCoy of St. Mary's from Gaylord, another exceptional player. McCoy proved his mettle beyond argument by his fine play. These two men would make a fine pair of forwards for any class D competition.

Center goes to George Artman, St. Joseph of West Branch. He possesses height and general good play. George, to distinguish him from his brother Paul who played guard, is an exceptional player. McCoy proved his mettle beyond argument by his fine play. These two men would make a fine pair of forwards for any class D competition.

The guards go to Cotter of McBain and C. McCoy of St. Mary's. Cotter made a nice impression in his local appearance and C. McCoy proved himself to be a first class man. They would make the going tough for opposing forwards.

A second team as good as the first is not hard to pick. O'Farrell of Hillman was a forward post without question. He'd almost be first team choice, though he falls a bit short. He played some very nice ball in Grayling however. Wilson of McBain would draw the other forward position and his teammate Ardis would easily be the center choice. Ardis would make any opposition plenty of bother and Wilson is not a novice. The guard positions go to Duggan of St. Joseph and Boyd of McBain. Duggan is a big man and a threat in the scoring. Boyd, though smaller, is a capable player and exceptionally cool and steady under fire. The two should team up in great shape.

Some of the teams will not find any of their men mentioned here. Any district tournament brings in teams which are not exceptional. They do not have men to choose from. They do not have adequate facilities to work with. They cannot develop men to the same degree which other schools with more to choose from and opportunity to practice as a basketball team should can reach.

A New York man stole an accordion and was given life imprisonment, it being his fourth offense. Now if they will let him take it along with him he can have plenty of opportunity to practice the Prisoner's Song.

It begins to look now as though what the wheat market really needs was not stabilizers but shock absorbers.

CLASS C ALL-TOURNAMENT TEAMS

Emory (Grayling)	F. (Grayling)	Sherman
Criske (Grayling)	F. (West Branch)	Rosebrugh
Harrison (Grayling)	C. (Lake City)	Erickson
LaGrow (Grayling)	G. (Grayling)	Cook
Curnalia (Grayling)	G. (West Branch)	Vogan

Honorable mention—Guards: Sheehy, Grayling. Centers: Burleson, Grayling. Forwards: Miller, Lake City; Gocha, Gaylord; Smith, West Branch.

CLASS D ALL-TOURNAMENT TEAMS

McBain (McBain)	F. (Hillman)	O'Farrell
L. McCoy (St. Mary's)	F. (McBain)	Wilson
G. Artman (St. Joseph)	C. (McBain)	Ardis
Cotter (McBain)	G. (St. Joseph)	Duggan
L. McCoy (St. Mary's)	G. (McBain)	Boyd

Honorable mention—Forwards: Sperry, Houghton Lake; Cherinski, Vanderbilt; Coviak, St. Mary's. Centers: Reminder, St. Joseph; Dennis, St. Mary's; Anderson, Houghton Lake. Guards: Hunt, Hillman; Booth, Mio.

GRAYLING LOSES IN REGIONAL FINALS

Basketball is a closed book in Grayling until another season rolls around. It ended officially at Petoskey last Saturday night when the timer signaled the end of the game and the scoreboard read: Harbor Springs 17, and Grayling 13.

Up until that point all of Grayling was thinking and talking basketball. The team was playing basketball. They began Friday night by taking a scalp in a most nonchalant manner, and East Jordan was the victim. The Northern Lights shone brightly in this game and quite pale any luster which might have emanated from the camp of the Jordanians. Grayling played cool, calm, and efficient basketball in this game, and never gave the opposition a chance to win. The final score was 20 and 14, a count which does not sufficiently indicate the superiority of the Grayling team. They were saving power for the second night.

Most of Grayling was on the scene of action for the finals on Saturday night. There was moral support in plenty for the green-clad team out there doing battle. More than moral support. Vocal support too. It was needed. Harbor Springs, defending their state title against all opposition, presented a smooth and evenly balanced team, a team that topped Grayling in height and surpassed them in experience. Grayling waged a desperate battle all the way, an effective battle, almost the means of upsetting the opposing team. The boys gave the best they had. The fact that it proved five points shy of victory makes no difference. There should be no regrets as far as the outcome of this game is concerned and all Grayling has a right to feel proud of the team.

That game with Harbor Springs will be a fruitful source of conversation for the next few weeks and well it might. Emory cracked the ice with a free throw and Harrison dropped in his first field goal to give Grayling a 3-1 advantage at the first quarter. This evaporated in the second period as the Harbor opened an offensive and took an edge at the half, 6-8. Harrison got a gratis toss and a beauty of a one hand deuce from scrimmage for Grayling in the second period.

Grayling stepped out again in the third frame and made a hard fight of it. Sherman got a free throw and Curnalia a long beaut of a basket. Harrison found the meshes for a goal from the field and Emory dropped in a pair of free throws, running the total to thirteen. The opponents had not been idle, however, and claimed a field goal, two free throws, and a total of fourteen points as the teams headed into the last eight minutes. Grayling went scoreless in this period and that settled the decision. Harbor made it certain with a field goal and one free throw that gave them their final margin.

It was one nice ball game and the huge gym rang with appreciation for the efforts of the boys. The Northern Lights played good ball and Coach McClain of the winners made the statement that his team made its best showing of the year. The good wishes of the Grayling people go with the Harbor team to Detroit. Anyone who wins the state Class C title will have to beat Harbor Springs.

The price of silver bullion is now at its low record, which may account for the fact that the silver lining to our clouds doesn't seem as bright as it used to be.

DISTRICT MASONIC BANQUET A BIG SUCCESS

On Thursday evening, March 13th, almost eighty Masonic brethren assembled in the spacious dining room of the Michelson Memorial church to partake of a very sumptuous dinner served by the members of the O. E. S. The tables were attractively decorated for the occasion, and to the strains of Clarke's orchestra, consisting of members of the F. & A. M. and the O. E. S., the Masons marched into the banquet hall.

After the banquet, the Worshipful Master of Grayling Lodge, Carl Peterson, introduced the Master of Ceremonies, Mr. F. DeLaMater of Gaylord. Mr. DeLaMater is chairman of the District Commission on Masonic Education, and he in turn introduced the Rev. J. W. Greenwood, a member of the Grayling Lodge to welcome the visiting brethren. Delegates were present from Gaylord, Rose City, Mio, Comins, and Roscommon, besides visiting brethren from other lodges outside the district.

Mr. DeLaMater then introduced the speaker of the evening, the Rev. Carlton Brooks-Miller, who gave one of the most inspirational and informing Masonic messages we have ever heard. Masonry must have meant a great deal more to all Masons after hearing such an address.

MANY SONG HITS FEATURE OF 'CAMEO KIRBY' FOX ROMANCE

Music of operetta quality is an outstanding feature of "Cameo Kirby," Fox Movietone romantic musical drama, which will be seen and heard Friday and Saturday, March 21 and 22 at the Rialto theatre screen.

A great array of composers and lyricists provided the original songs for this production, including Walter Donaldson and Edgar Leslie, Ed. Brady and Fred Strauss and George Lipschultz.

"Romance" written by Donaldson and Leslie, undoubtedly will become one of the best selling song hits of the year. Those who have heard it say it far surpasses Donaldson's "My Blue Heaven," popular a year ago, and one of the biggest sellers in modern musical history. "Romance" is sung in "Cameo Kirby" by the co-stars, J. Harold Murray and Norma Terris, recent Broadway musical stage favorites.

Donaldson and Leslie also contributed "After a Million Dreams," a ballad, and "Home is Heaven," a spiritual, to the "Cameo Kirby" score. Murray sings "After a Million Dreams" and also sings the spiritual with George MacFarlane, a negro spiritual chorus and the Fox Movietone quartet.

Brady and Strauss contributed "Tankard and Bowl," a rousing drinking song which is sung by Murray and the Fox-Movietone male quartet and chorus, and a comedy song, "I'm a Peaceful Man," which is Stephen Fitch's vocal contribution to "Cameo Kirby."

In addition to the seven songs, there is an instrumental prelude written by Donaldson and three dance numbers written by George Lipschultz, Fox Movietone musical director and renowned violinist.

All the songs and instrumental music fit naturally into the production, greatly enhancing its romantic moments and adding immeasurably to "Cameo Kirby's" entertainment value. Irving Cummings directed.

Hotpoint TOASTER

You'll really enjoy using the Turn-Knob Toaster. Makes the kind of toast you want, whether it be delicately browned, golden or crisp and crunchy.

The Turn-Knob raises and lowers both sides of the toaster at the same time and automatically turns the toast.

Stop in and see it TODAY.

Combination Offer

New Hotpoint Percolator.....\$12.95
New Hotpoint Toaster..... 6.50

Regular Value\$19.45

This Month We Offer

Hotpoint Percolator\$12.95
Hotpoint Toaster 1.00

.....\$13.95

Credit for old Coffee Pot..... 1.00

You get Both for \$12.95

If customer desires only Toaster same can be purchased at special price of \$4.95 Saving \$1.55.

If customer prefers Percolator only, same can be purchased for \$9.95—Saving \$3.00.

Michigan Public Service Co.

for Economical Transportation

Chevrolet announces A NEW SERVICE POLICY

The Chevrolet Motor Company and its dealers are pleased to announce a new service policy—one of the most liberal ever offered on a low-priced automobile.

Put into force as a written agreement given to the purchaser by the Chevrolet dealer when the car is delivered—it offers the following provisions:

- 1 Every Chevrolet owner receives his car from the dealer in perfect condition—thoroughly lubricated, properly adjusted, and ready to operate efficiently from the first mile of ownership.
- 2 Every Chevrolet owner is entitled to free inspection and adjustment of his car at the end of the first 500 miles of usage.
- 3 Every Chevrolet owner is entitled to free inspection of his car every 1000 miles thereafter, so long as the car is in operation.
- 4 Every Chevrolet owner is entitled to free replacement of any part which may prove defective in workmanship or material, within the terms of Chevrolet's standard warranty. This includes both parts and labor.
- 5 Provision number 4 will be carried out by any Chevrolet dealer in the United States. As a result, the Chevrolet

owner may travel to any part of the country, with assurance that the guarantee on materials and workmanship will remain in force.

This new policy constitutes proof of Chevrolet's high quality—for such liberal provisions could only be made in connection with a car built of fine materials to exacting standards of workmanship.

Back of this policy, and assuring its successful operation, is one of the most complete and efficient service organizations in the world.

There are more than 10,000 Authorized Chevrolet Dealer Service Stations in the United States alone. Each employs skilled mechanics thoroughly trained at Chevrolet Service Schools. Each has specially designed tools and machinery developed exclusively for Chevrolet service work. And each has on hand, at all times, an adequate stock of genuine Chevrolet replacement parts.

Chevrolet's flat-rate charges, including both parts and labor, are the lowest in the industry on many service operations. In considering the purchase of a low-priced automobile, think what this service means—in terms of lasting satisfaction, as well as in increased economy.

Chevrolet cars range in price from \$495 up, f. o. b. factory, Flint, Michigan

CHEVROLET MOTOR COMPANY, DETROIT, MICHIGAN
Division of General Motors Corporation

A SIX IN THE PRICE RANGE OF THE FOUR
Alfred Hanson, Grayling, Mich.

SAVINGS PASSBOOKS SOUGHT BY CROOKS

Use Them to Steal Money by Forged Slips—Should Be Guarded as Carefully as Cash.

Continued vigilance in safeguarding savings pass books, as well as blank and cancelled checks, against theft by crooks, who use this material in forgeries, is urged on bank customers by James E. Baum, Deputy Manager of the American Bankers Association, in charge of its Protective Department. This department is continually vigilant in promoting means, both among bankers and the general public, to thwart the operation of bank crooks. It annually investigates hundreds of crimes against banks and is responsible for the majority of arrests among this class of criminals.

"In a large majority of cases of forgeries on checks or savings withdrawal orders investigated by the American Bankers Association, stolen blank checks or savings pass books were the forgers' chief stock in trade," Mr. Baum says. "In many instances the temptation presented through the careless handling by depositors of cancelled or blank checks or pass books so that they fell into the hands of others was the immediate stimulus for their criminal offense."

Banks should educate their depositors to the same degree of care in handling these instruments and to avoid leaving them about unguarded as they exercise in respect to actual money because they represent money, he declares.

For dealing with the bank robbery situation, Mr. Baum recommends the use of electrical alarms actuated by any tampering with the wires or mechanism and also wider adoption of the plan of state police forces now employed in a few states, declaring that last year in seven eastern states where state police forces were maintained there were only 20 bank holdups as against 164 similar attacks perpetrated against banks in five states in the central and far west, where banks are denied the advantages of the speedy and coordinated action given by state-wide police forces.

"The records of the American Bankers Association Protective Department reveal that for many years the odds in favor of state police protection have been at least 2 to 1 when measured by the experience of banks in states where efficient police protection is missing in the rural districts," he says.

DIPPING INTO SCIENCE

Meals of 500 Pounds

You have imagined often the enormous size of some of the prehistoric animals; but what did they eat, and how much? Scientists agree that these sixty-foot monsters, called dipodops, ate vegetable matter and the average daily portion must have been approximately 500 pounds. Fossils of these animals furnish interesting data.

(© 1930, Western Newspaper Union.)

Free Want Ads. to Subscribers

During the month of March all "For Sale" and "Wanted" want-ads in the Avalanche will be run free to paid-in-advance subscribers. This gives our subscribers an opportunity to advertise any articles they have no further use for—churns, plows, cars, furniture, phonographs and records, farms and other land, etc. Also, there will be many things you will want. Someone, undoubtedly, has just such an article as you are wanting, and by putting a little want-ad in our paper you will find just what you want.

Of course those in business will understand this offer does not apply to goods which they carry in stock for sale. It does apply, however, to articles not connected with their business which they wish to dispose of, or something not connected with their business which they wish to buy.

This offer is not made as an inducement for anyone to pay their subscription—we don't have to. The Avalanche, we believe, has the best paid up subscription list in northern Michigan.

It is simply a good-natured effort to extend the usefulness of our Want-ad department to our friends, and is another added feature to make the Avalanche more valuable to its readers.

THE THINKER LEADS MODERN PROGRESS

By JOHN G. LONSDALE
President American Bankers Association

THE greatest need of the world today is interpreters of our times—modern Daniels in agriculture, finance, politics, industry—w-h-o can see through the fog and haze that enshroud our difficult problems and advise, instruct, and inspire those who are either indifferent or limited in their perceptions.

Through the thinker and the interpreter, unknown situations are disclosed or puzzling conditions explained in logical light. The American people are so constituted that they can meet and combat any situation once it is known and understood. It is the unknown that comes like the thief in the night and brings disaster.

Some one has defined prosperity as something the business men create for the politicians to take credit for. But America's present-day prosperity can be defined as a product resulting from the business man's ability to study and to interpret. Huge corporations maintain research staffs and special bureaus to interpret the times for them. Disaster looms in the offing for any industry that goes blithely on its way day after day without due regard to significant trends in trade and business.

Keeping Up With Change Leaders of finance have discovered that they cannot remain passive in an age when all the rest of the world is in a transitional stage. The modern banker not only must know about the changing styles in other lines of business, but above all must be alert to the transformations which are taking place in his own. He must be a man of keener, broader vision, because the order of the day is for larger units of service. Mergers and consolidations have taken place in great numbers. We now talk of billions where a few years ago we talked of millions.

We have only begun our changes. What disposition is to be made of the many problems that they bring will depend in large measure upon our leaders, upon the students and the interpreters who can read accurately the signs of the times, so that we may base future actions and hopes upon their wisdom. The quickest way to go to the top is to go to the bottom of things, and let us hope that among them will be found men who will not only aspire to leadership but will be successful in reaching their goal.

DREER HUNTERS INCREASE 4,000

The number of deer hunters in Michigan increased almost 4,000 in 1929 over the previous year according to a report of the Conservation Department.

The report shows that 62,997 deer hunters were licensed last November as compared with 59,078 in 1928. Of the licenses issued last fall, 62,636 were residents and 361 were non-resident hunters.

AVOIDING LOSS FROM CALLED BONDS

When you read over a bond circular or a bond you will frequently see some such phrase as "Redeemable on any interest date at 102 and interest." "Callable at 108 plus accrued interest." On certain specified dates. This means that if the borrower desires to pay back the money before it is due—before maturity—he may do so by giving notice of call, provided that he complies with the redemption provision agreed upon when issuing the bonds. Usually a premium is paid to the investor, in addition to the principal, on bonds called before maturity. This compensates him for the trouble of reinvesting his money.

It is customary to give public notice in the press on three successive dates prior to the call date so that persons owning bonds of that issue may send them in at the proper time. Interest ceases on the date of call so that if an investor fails to send in his bond and reinvest his money by the call date he loses interest on his money from that date. If he clips his coupons regularly, he will discover his oversight on the next interest payment date, for on sending in his coupon it will be returned to him with the information that the bond was called six months ago. If he neglects both to send in his called bond and to clip his coupons, he is unable to claim it after the call date.

How then is an investor, immersed in his own affairs, to avoid loss of interest in case one of his bonds is called and he fails to see the notice? The investor, in the first place, should know if his bonds are "callable," that is, if they are subject to call. If they are, he should keep his eyes open himself or use the services of his investment banker. Many reliable investment houses maintain statistical departments for the purpose of helping their clients; sometimes for a small charge; others offer the service gratis. The investor should list his "callable" bonds with such an investment banker and ask to be notified in event of a "call" interest. Responsibility is then of his shoulders for the investment house will watch for the investor and give him due notice when his bonds are called. By having this notice in ample time the investor is able to secure a profit (this premium on the called bonds) and to reinvest without loss of interest.

In these days of declining interest rates nearly all bonds contain the "callable" or redemption feature and it is up to the investor to avoid loss through idle hands by having his interests watched carefully.

What is a Husband?

A husband is a man who comes some two hours late and wonders why his wife hasn't got back.—San Francisco Chronicle.

DRESSING UP THE DAILY MEAT DISH

Meat may be dressed up just as attractively as any salad or dessert you can imagine, using the very foods which are on the menu. Choose an accompaniment that will contrast the meat in flavor, texture, and color and you have the requirements for a good garnish, for it will appeal to both the taste and the eye. The accompaniment may be arranged in a very attractive way on the platter with the meat and served with it.

The National Live Stock and Meat Board suggests some accompaniments for meat that are also garnishes:

Beef. With roast beef serve spiced raisins, tomato piccalilli, spiced peaches or pears, canned quinces or spiced kumquats. Horseradish sauce with a hot roast. With broiled steak serve fried mushrooms, grilled tomatoes, stuffed potatoes.

Pork. With roast pork serve currant jelly on fried apple rings, cranberry sauce, or apple sauce or baked apples.

Lamb. With roast lamb serve circles of baked orange topped with mint jelly, canned quinces or kumquats. With lamb chops serve currant jelly on fried rings of pineapple or slices of fried tomato, or apricots or sweet potato purée and sauce bernaise or mint ice.

Ham. With baked ham serve baked pineapple, mustard pickles, baked orange slices, spiced raisins or fruit in jelly syrup. With broiled ham serve scalloped crushed pineapple and glazed carrots.

Veal. With veal chops serve spiced gooseberries, tomato pickles or spiced peaches. With pressed veal serve hard cooked eggs.

Liver. With liver serve bacon curls. Cold Meats. With cold meats serve canned prunes with ginger or fruit conserves.

THE POLL ON PROHIBITION

The Literary Digest is conducting a poll among twenty million men and women in the United States on the prohibition question. It is the most gigantic effort to determine public sentiment that has ever been attempted. The results should be as nearly correct as any human agency could make them.

Every portion of the country will be penetrated, every strata of society will be reached. It is being conducted so that those voting will not have to attach their names to the ballots—there will be nothing to prevent them from giving a correct expression of their convictions on this great social problem.

The results of the poll will not change existing laws. New legislation will be needed for that. It will probably not change many opinions, but it will reveal how a vast portion of our people are thinking after a ten year's trial as a dry nation.

Konjola Ends Agony Caused By Rheumatism

Lady Suffered For Five Years—Fears—Relief Would Never Be Her Portion

MRS. MAGDELENA ROBERTS

Don't have the fear that there is no escape from rheumatism, even though medicine after medicine, treatment after treatment has failed. Put your faith in Konjola, as did Mrs. Magdalena Roberts, 10109 Forest avenue, East, Detroit. Think of her joy when she uttered these glad words:

"No wonder I am grateful for Konjola. For five years I endured agonies, at times the pains in my back were so terrible that I was sick all over. The pains attacked every part of my body. My stomach was in bad condition too. Nothing helped me, and I was about to give up in despair when I heard of Konjola and its amazing success.

"How glad I am that I put this wonderful medicine to the test. Why, the very first bottle did me a lot of good, and then the improvement was rapid. In just six weeks the rheumatism was conquered and my digestion was restored. I am feeling just fine, and I think it my duty to tell the world what this remarkable medicine, Konjola, did for me."

Konjola is sold in Grayling at the Mac & Gidley drug store and by all the best druggists in all towns throughout this entire section.

PROMPTNESS

"In all things be prompt. Get the thing done. DO IT NOW. Delay is fatal. The only way for a busy man to get through with his work is to take up one thing at a time and stick to it until he puts it through. Never mind if the work is difficult—it must be done."—Walter H. Cottingham.

Hospital Notes

Mr. Otis Bell, who has been a patient in Mercy Hospital for several months, will be dismissed Saturday of this week.

George Manier of Gaylord was dismissed from the hospital Tuesday, after receiving medical treatment there for several days.

Pauline Schoonover, a student nurse at Mercy Hospital, is confined to her home with the flu.

Mrs. Herbert Trudeau, who has been a patient at Mercy Hospital for two weeks was dismissed Saturday.

Mrs. C. J. MacNamara underwent an operation at Mercy Hospital Wednesday morning. She is getting along nicely.

Mr. and Mrs. Arthur H. Fleetwood are the proud parents of a son born at Mercy Hospital Tuesday morning. They have named him Arthur Hugh, Jr.

Mrs. C. J. Sarros of West Branch is recovering nicely from her recent operation. Mrs. Sarros left Mercy Hospital Thursday and will spend a week with her sister, Mrs. Menno Corwin, before leaving for her home.

Misses Retta Leabreter and Nina Flemming spent Sunday at their homes in Vanderbilt.

Mr. Heideman of Peck, Michigan, underwent an operation at Mercy Hospital Monday. He is recovering nicely.

Miss Donna Millikin who has been a patient at Mercy Hospital for several weeks is improving nicely.

Mrs. James Christian (Anna Fisher), her brother, L. Fisher and Mr. and Mrs. Joseph Bilitzki were visitors at the hospital Wednesday.

Mrs. John Harrison of Roscommon, Mrs. Ida Burke of Houghton Lake, Mrs. Keller of Vanderbilt and baby Robert Baldwin of Frederic are patients at the hospital.

financial aid from outside sources, just as does every other hospital of a similar nature. The cost to the individual is so little that none will miss the amount. The good that our money can do is a deserving assistance to this worthy institution in their service to humanity.

PASSING BONEYARDS

Motor car manufacturers were wise when they decided to sponsor a plan to reduce to the salvage pile some 400,000 wornout and decrepit motor cars throughout the country.

Not only will such a plan open a vastly greater market for their eventual replacement but it will result in improved conditions for safety on the highways where these unfit cars were being operated.

As the motor industry advances we may look for additional examples like this for protecting themselves and the public. Plans will be worked out where the final depreciation of a car will be borne by the manufacturer and hasten the day when unsightly automobile boneyards now disfiguring the highways will disappear from the face of the earth.

The dealers, the public, the manufacturers themselves, will profit by this latest move.

TAKE THIS LESSON HOME

Did you ever happen upon the scene of an automobile accident shortly after it had taken place? Did you ever witness passing motorists remove a torn form from the wreckage of a machine, a ghastly thing that a few moments before had been a laughing, happy, human being?

If you have had this experience you know how it feels, the sensation that strikes a feeling of terror and pity to your heart, that turns you away sickened at the sight. Such a scene makes you wonder why some people will insist on indulging in reckless driving, when tragedy and death is forever lurking in the background.

Traffic laws, traffic codes, traffic signals, all have their part in accident prevention, but until there is a universal observance of "safety first" rules of the road the slaughter of the innocents will continue.

We have known many people to have their entire lives wrecked through an insane urge to a moment of recklessness. We have witnessed them in the midst of their misery becoming a fate that could have been avoided by careful driving. When too late they think of the repeated warnings they have had, in agony of soul they cry out for a chance that will never come to undo the mistake that may have taken the life of a friend, a loved one, or perhaps an entire stranger.

Don't let the 1930 appeals for careful driving go unheeded. On every hand warning signs are posted—there is no excuse for their being ignored—they have been put there for your safety and the safety of others. The time is coming when reckless drivers will be forbidden the use of an automobile on the highways—surely you do not want to be listed among their number?

WARNING TO INVESTORS

The Michigan Securities Commission wishes to warn you to BEWARE of men who come to you, knowing that you own stocks, and represent themselves to be agents of that company. These men use an assumed name and a fake address.

They represent to you that your company is reorganizing or merging, or they offer to sell your stocks at a price a few points above the market price but promise you that the broker which they claim to represent will send a check for the amount the stock sells for. Or, they offer to trade real estate which they do not own. Once these stocks are in their possession you never see or hear of their again.

If you wish to dispose of your stocks take them to your nearest broker or banker, or send them by mail to the company who sold you the stock. They will protect you.

GOODFELLOWSHIP CLUB NOTES

The final meeting for the current year was held Monday evening, it being St. Patrick's Day the ladies attended "The Gold Diggers of Broadway" at the Rialto theatre and then went to the home of Mrs. F. R. Walsh where following the business session the hostess served a very attractive St. Patrick's lunch. This was a very pleasant way to spend the last meeting of a very interesting year.

A. E. Martin

BUSY SUNDAY (?) IN GRAYLING

When the writer, as a boy, read the tales of shipwreck and marooning on the lonely island in the South Seas, he often thought how aggravating it must be to miss a notch or two in keeping track of the days (in those stories the shipwrecked sailor always kept track of the passing time by cutting a notch in a stick kept for that purpose every twenty-four hours as the sun rose or set). But evidently there are others besides shipwrecked sailors who get the days mixed up, as witness a former resident of this village who usually lays in a stock of provender for the winter and then "hibernates" down on the South Branch of the AuSable till the snow and ice is gone and the trailing arbutus begins to "trail". The remarkably pleasant spell of weather just passed looked so much like Spring that things lived up at the home down on the South Branch. The Mrs. came to town to do some "Saturday" shopping, and thought at the time that the "young ideas" seemed overly ambitious in their efforts to "learn how to shoot" by attending school sessions on Saturday. The following day the man of the house thought he would take his turn and spend a pleasant "Sunday" in town. With a companion he drove to the village, and as they passed near the mill, remarking that "business must be picking up to cause them to run on Sunday" and suggested to his friend that there might be a chance for him to get a job in the rush. On going to the home of a brother he was told that, not having to work that day, his brother had gone fishing. The "not having to work that day" bothered him a little as he knew his brother never worked on Sunday, and he asked what day it was, and was told that it was "Washington's Birthday". This did not enlighten him much as to the day of the week, so still thinking it Sunday, he came down to the Main street where the number of cars parked along the curb, the business places all open, and the usual week-end bustle and stir rather surprised him, and he thought—"some busy Sunday." When, after stepping into a grocery, he made further inquiry and was told that the day was Saturday, he could hardly believe it till he had sat down and summed up all his actions for the previous seven days. Then at last convinced, he hurried home to revise his calendar, with the assurance that he had one more day of life coming than he had anticipated.

LIKE A BLANKET

A half-page advertisement for "the house" in Eaton County's leading newspaper—the Charlotte Republican Tribune—states that the paper "Covers Eaton County Like a Blanket." For the sake of Lieutenant Governor L. D. Dickinson, to whom Editor M. L. DeFoe gives considerable publicity as the tentative "dry" candidate for Governor on the Republican ticket, let us hope he does not mean a "wet" blanket.

A GOOD SPORTSMAN

President Hoover is a good sportsman. He has protested the passing of special legislation that would have made it possible for him to fish trout in the Rapidan river, Virginia, on the banks of which he makes his summer home. In no uncertain terms he told the Virginia legislature that while he appreciated the courtesy of a pending bill to permit him to fish when others could not, he had no intention of fishing out of season on any waters. He further stated that he did not believe any stream should be fished by anyone out of season.—Detroit Free Press.

THANK THE PEOPLE

I wish to thank my many friends for their loyal support in placing my name on the ballot for supervisor.

Your support at the polls April 7th will be as gratefully appreciated.

Very truly yours,

F. A. BARNETT.

FOR SALE—Baldwin Estate house. Barrata for cash or on easy terms. Inquire of O. P. Schumann, Grayling, Mich., phone 111. tf.

"CHASING RAINBOWS" HAS MUSICAL HITS

Love and King Sing in Technicolor Revue of New Talks

Sunday and Monday, March 23-24

Five song hits from the pianos of seven of America's most popular composers provide the tuneful background of "Chasing Rainbows," musical extravaganza which will open Sunday and Monday, March 23 and 24 at the Rialto Theatre with Charles King and Bessie Love in the featured roles.

Milton Ager and Jack Yellen, noted for their "Ain't She Sweet," "I Wonder What Became of Sally," "Forgive Me," "Crazy Words" and "Hard-Hearted Hanna," wrote "Lucky Me, Loveable You," "Everybody Tap" and "Happy Days Are Here Again" especially for the new Metro-Goldwyn-Mayer production.

"Everybody Tap" fits into a huge dancing ensemble with Miss Love singing and dancing the number with the trained chorus of two hundred boys and girls. "Lucky Me, Loveable You" is the love song sung by Charles King and Miss Love and "Happy Days Are Here Again" is the musical setting for the final spectacle, filmed in Technicolor.

Low Alter, who wrote "Manhattan Serenade," composed "Love Ain't Nothing But the Blues" with Joe Goodwin, which King uses as a specialty song. Fred Fisher, George Ward and Reggie Montgomery joined in writing "My Dynamic Personality," in which Marie Dressler scores.

All of the song hits were written to meet the demands of the original story, penned by Bess Meredyth and adapted for the screen by Wells Root. So catchy and impressive were the song numbers that four phonograph companies signed record contracts before the musical-movie was even finished by Charles F. (Chuck) Riesner, who last directed "The Hollywood Revue of 1929."

Included in the supporting cast of the backstage comedy-drama are Jack Benny, Polly Moran, Gwen Lee, George K. Arthur, Eddie Phillips and Nita Martin.

This is the second appearance of Miss Love and King opposite each other. They first played together in "Broadway Melody."

REDECORATING AT HOSPITAL

Men's Ward Completely Refinished

Again the Grayling Mercy hospital has been a recipient thru Mrs. Marshall of Toledo. This time the men's ward being thoroughly redecorated and the furniture refinished.

It is now a most complete and comfortable room as well as being artistically arranged. The color scheme of green and cream has been carried out.

The ceiling and walls of pale green with ivory woodwork make a pleasing effect with deep cream beds and green chairs and stands. A large metal locker divided into six compartments is finished in green. White spreads cover the beds and a green window shades, curtains and drapes make the windows attractive. As soon as there is need of awnings new ones will be put up, and this will add greatly to the comfort of the patients.

The bed lamps, for the convenience of those who will be in this ward, will be greatly appreciated as well as the reading matter supplied to this room. A year's subscription to the Saturday Evening Post, Colliers and the Liberty magazines will be found here. Wall vases filled with growing vines and beautiful pictures adorn the walls. Bookshelves conveniently placed, shelves over the high steam radiators to hold reading matter and a window seat complete with cushion over the low radiator all give this room the effect that is certain to please the men and boys who will be confined to this restful room. In no hospital can be found a more attractive men's ward. The bath adjoining has been refinished also, the same color scheme being used.

We trust that Mrs. Marshall will understand just how much the people of Grayling appreciate her generosity in doing the wonderful things she is doing for our hospital. The patients, who will be in this ward from time to time, will also thank Mrs. Marshall for making it possible that they can have such a cheerful place to regain their health and with the best of care that one always receives at this hospital, this ward will be one of the popular features of the Grayling Mercy hospital.

M. BRENNER IN BANKRUPTCY

The following article which appeared in the Bay City Times Tribune, March 23th, will be of interest to the people of Grayling:

"Michael Brenner, Flint retail dry goods merchant, was served with a subpoena today ordering him to make answer to involuntary bankruptcy proceedings started against him in federal court here.

The petitioners asking Brenner's adjudication as a bankrupt are the Morris Levin Glove Co., the Schoenfeld and Schoenfeld Co., and the Abe Gordon Co., all of Detroit. They alleged Brenner's liabilities are \$5,000 and his assets, \$1,500. They have petitioned for a receiver and an inventory.

Mr. Brenner was at one time a dry goods merchant in Grayling and at that time filed involuntary petitions in bankruptcy.

THE TRANSPORTATION OF OIL BY PIPE LINE

By Robert P. Bascom, Vice President and General Manager Shell Pipe Line Corporation

When you patronize a red and yellow service station, the oil and gasoline which you purchase have traveled by pipe line in the form of crude oil from 500 to 1000 miles or more, depending upon the location of the oil fields in which the crude was produced.

An oil pipe line consists of sections of steel pipe joined together into a continuous whole. This statement is true whether you spell the whole with or without the "w". Through this hole or conduit, buried in the ground, crude oil is forced by pressure pumps located at strategic intervals along the pipe line.

There are in this country some 90,000 miles of oil pipe lines, divided about equally between gathering lines—that is, short, small diameter, low pressure lines which bring the crude from the point of production to collecting centers in the oil fields—and main trunk lines through which the crude oil is pumped under high pressure, over long distances from the collecting centers to the refineries. These lines extend from New Mexico to the Atlantic seaboard and through this system of underground lines millions of barrels of crude oil are pumped annually. All of the interstate pipe lines are under the jurisdiction of the Interstate Commerce Commission, the same as railroads and other utilities engaged in interstate commerce.

When the problem of crude oil transportation first arose in the early days in Pennsylvania, the crude was placed in barrels at the wells, hauled into wagons and hauled to the nearest railroad. Later pipe lines were built, which, viewed in the light of our present day engineering knowledge, were well deserving of the name crude oil pipe lines but which at the time were remarkable achievements, as this method of transportation was

THE REPORT CARD

(By Grayling Public Schools)

Grayling Fights Hard At Potoskey Tournament

At the Potoskey tournament last week, Grayling showed its fine fighting spirit in putting up a hard fight with East Jordan, winning at a score of 20-14. Their next adversaries, however, were not as easily conquered, Harbor Springs, putting up a hot fight, but losing to the better team, 17-13. As runners-up in class C, Grayling received a basketball for its efforts and good work shown. Seventh Grade Last on Assembly Program List

A week ago, the seventh grade presented their program, one of the best given yet, as judged by the student body. The program consisted of two short plays, with piano solos, in-between. We feel that the seventh grade merit credit for their fine program and are close seconds to the Junior program presented last fall.

Personals

Brad Jarmin is very sick at his home. We wish him a speedy recovery.

Quite a number of the students went to Potoskey with the team last week.

Fern Chalker is spending the week in Kalamazoo.

Cathryn Mallinger is wearing glasses. We're all surprised.

Hilary Craig has returned to school after a few weeks absence.

Jokes

Cushman—It is the law of gravity that keeps objects on earth.

Don E.—How did they stay on earth before the law was passed.

Dutch—The more I look at you the more beautiful you seem.

Lura—Yes?

Dutch—I ought to look at you often.

Gordon Pond likes himself so well he disguised his handwriting and sent himself mash notes.

Michelson Memorial Church

John Wilfred Greenwood, Minister

Sunday, March 23, 1930

Continuing the Lenten series

10:30 a. m. "God's yardstick." "Is God's measurement of life different than man's?"

7:30 p. m. "Who owns your mind?" Remember the Sabbath Day To Keep It Holy

In modern America, it would seem that we have gone far from the message contained in this ancient command. In the first place we have substituted the Lord's Day for the Jewish sabbath. Sunday is a weekly memorial of the resurrection of the Lord.

But this much can be said. No matter what day we choose to observe, we have retained the principle involved in this command, and that principle is the keeping of one day in seven holy unto the Lord. And in the light of Jesus' remark as to the letter-killing, and the spirit-making alive, the principle is the essential matter involved.

However, there is always the danger among Christians of falling into the old attitude of assuming a legalistic attitude toward the institution. Our danger is that we put the day at the center, rather than human life. A Jesus mentioned this danger. In what shall Sunday be kept in accordance with the message of Jesus? This is our question. Does my use of Sunday help human life? Does it relieve it at any point of tension? Does it minister to it at any point of need? Is my use of Sunday self-centered?

Following the survey parties, the right-of-way forces search the title to the properties crossed, determines the owners, purchase the right to lay the lines and build a telephone line. secure the consent of tenants and mortgages, perfect the titles through appropriate court action, and do the thousand and one things necessary to secure a valid right-of-way.

As soon as sufficient right-of-way is secured, so as to insure continuous operation for the construction forces, the active building of the pipe line begins.

The foregoing is an address delivered by Mr. Robert P. Bascom to the members of the Engineers Club of St. Louis at their regular monthly meeting, March 13, 1930.

In comparing present day methods of motive power used in pipe line surveying and construction, Mr. Bascom stated that during 1917 and 1918 over 800 horses and mules were used in the laying of the Shell pipe lines between McCamey, Texas and Cushman, Oklahoma, whereas today motor

entirely new and novel. From this early beginning has grown an industry which today represents invested capital of over \$700,000,000.

Crude oil is forced through the pipe lines by means of pumps which are in general operated by Diesel engines or electric motors. The pumps are of two kinds—reciprocating plunger pumps and high speed centrifugals. This pumping equipment, located at appropriate intervals along the pipe line, attended with operators' quarters tanks and other equipment, constitute what are known as pumping stations. These stations are about 30 to 40 miles apart, depending upon the topography of the country traversed by the line. Pipe lines being pressure lines are not laid to grade but follow the contour of the country.

Pipe lines operate 24 hours daily—every day in the year. The crude which is taken into the lines is first measured to the nearest one-hundredth of a barrel, then brought through gravity lines to the first pumping station where the oil is forced into the pipe lines and starts on its way to the refineries. The lines are checked hourly for receipt into and delivery from the system, requiring an exact synchronization of gauging time and careful dispatching. On long lines where there are many pumping stations, the stations must be kept in step, that is, each station forcing ahead the same amount of oil it receives. This precaution is especially necessary when pumping more than one grade of crude through the line.

In order to provide a means of communication with the pumping stations and other operating forces, a full mile telephone circuit is built, paralleling the pipe line. Over this telephone line, the business of oil transportation and line maintenance are carried on.

In building a main trunk line, a selection of route is first made. The route should be as near a straight line as possible, although diversions are made for towns, cities, cemeteries, parks, etc. But little attention is paid to selecting a route which will provide easy construction, for extra building costs are repaid through cheaper operating costs, due to shorter lines. A route that is easily accessible is of course preferred for maintenance reasons.

After the course has been selected, the route is surveyed and the line route is into the property subdivisions. A profile of the line is made by a level party. In rough mountain country the surveys are sometimes supplemented by means of aerial surveys to aid in the location of the line.

Following the survey parties, the right-of-way forces search the title to the properties crossed, determines the owners, purchase the right to lay the lines and build a telephone line. secure the consent of tenants and mortgages, perfect the titles through appropriate court action, and do the thousand and one things necessary to secure a valid right-of-way.

As soon as sufficient right-of-way is secured, so as to insure continuous operation for the construction forces, the active building of the pipe line begins.

The foregoing is an address delivered by Mr. Robert P. Bascom to the members of the Engineers Club of St. Louis at their regular monthly meeting, March 13, 1930.

entirely new and novel. From this early beginning has grown an industry which today represents invested capital of over \$700,000,000.

Crude oil is forced through the pipe lines by means of pumps which are in general operated by Diesel engines or electric motors. The pumps are of two kinds—reciprocating plunger pumps and high speed centrifugals. This pumping equipment, located at appropriate intervals along the pipe line, attended with operators' quarters tanks and other equipment, constitute what are known as pumping stations. These stations are about 30 to 40 miles apart, depending upon the topography of the country traversed by the line. Pipe lines being pressure lines are not laid to grade but follow the contour of the country.

Pipe lines operate 24 hours daily—every day in the year. The crude which is taken into the lines is first measured to the nearest one-hundredth of a barrel, then brought through gravity lines to the first pumping station where the oil is forced into the pipe lines and starts on its way to the refineries. The lines are checked hourly for receipt into and delivery from the system, requiring an exact synchronization of gauging time and careful dispatching. On long lines where there are many pumping stations, the stations must be kept in step, that is, each station forcing ahead the same amount of oil it receives. This precaution is especially necessary when pumping more than one grade of crude through the line.

In order to provide a means of communication with the pumping stations and other operating forces, a full mile telephone circuit is built, paralleling the pipe line. Over this telephone line, the business of oil transportation and line maintenance are carried on.

In building a main trunk line, a selection of route is first made. The route should be as near a straight line as possible, although diversions are made for towns, cities, cemeteries, parks, etc. But little attention is paid to selecting a route which will provide easy construction, for extra building costs are repaid through cheaper operating costs, due to shorter lines. A route that is easily accessible is of course preferred for maintenance reasons.

After the course has been selected, the route is surveyed and the line route is into the property subdivisions. A profile of the line is made by a level party. In rough mountain country the surveys are sometimes supplemented by means of aerial surveys to aid in the location of the line.

Following the survey parties, the right-of-way forces search the title to the properties crossed, determines the owners, purchase the right to lay the lines and build a telephone line. secure the consent of tenants and mortgages, perfect the titles through appropriate court action, and do the thousand and one things necessary to secure a valid right-of-way.

As soon as sufficient right-of-way is secured, so as to insure continuous operation for the construction forces, the active building of the pipe line begins.

The foregoing is an address delivered by Mr. Robert P. Bascom to the members of the Engineers Club of St. Louis at their regular monthly meeting, March 13, 1930.

In comparing present day methods of motive power used in pipe line surveying and construction, Mr. Bascom stated that during 1917 and 1918 over 800 horses and mules were used in the laying of the Shell pipe lines between McCamey, Texas and Cushman, Oklahoma, whereas today motor

News Briefs

THURSDAY, MARCH 20, 1930

The O. E. S. Chapter No. 83 will hold a special meeting next Friday night at which time initiation will be held.

Mr. and Mrs. F. Shirley and children of Roscommon spent Thursday at the home of the latter's brother, LeRoy Scott.

Miss Kathryn Brown returned Monday morning from Flint where she had been spending a week with friends.

The fire whistle which sounded Saturday night at ten o'clock caused a lot of excitement but proved to be a false alarm.

Wilbur Coon, Armes and Formedies in ladies arch support shoes at Olson's Shoe Store.

Mr. and Mrs. Edgar Murray of Detroit spent a few days last week at the Murray Lodge on the AuSable river. They returned Sunday.

Mrs. J. H. Howard returned to her home in Louisville, Kentucky, after spending a couple of weeks visiting her son, Dr. R. B. Howard and wife.

We need a few copies of last week's issue of the Crawford Avalanche to place in our files and would be very grateful to have a few brought in. We will pay 5 cents each for them.

Mr. and Mrs. J. E. Fletcher of Lansing and granddaughter Audrey Hewitt visited the former's daughter and family, Mr. and Mrs. Geo. Schable and family for several days last week. Mr. Fletcher was pleased to catch five fine fish from Lake Grayling during the time he was in Grayling.

Dr. R. B. Howard was in Lake City on professional business Monday.

The best of the new spring styles in ladies and children's shoes, Olson's Shoe Store.

Mr. and Mrs. Daniel Flynn of Rose City were guests of their daughter, Mrs. Menno Corwin the first of the week.

Mr. and Mrs. Emmet Culligan of Grand Rapids and little daughter Patricia are guests of the former's brother, Rev. Fr. Culligan.

Dr. B. W. Carey of Detroit, supervisor of the Couzens Child Welfare Fund, was in Grayling last week Thursday and while here was a guest of Dr. and Mrs. R. B. Howard.

Come to the bake sale given by St. Mary's Altar Society at the N. Schlotz grocery store, Saturday, March 22. A nice assortment of baked goods will be sold.

Misses Margaret and Hazel Cassidy of Flint spent the week end with their parents, Mr. and Mrs. Thomas Cassidy. They were accompanied back Sunday by their mother and brother Joseph.

Dr. Goldie Corneliusson will arrive here next Monday to begin a series of addresses and will conduct classes in the interest of health, in cooperation with the Consolidated District Health Department.

Miss Virginia Phillips and Mr. Theodore Gaukel, both of Lake City, were united in marriage by Rev. J. W. Greenwood at the Methodist parsonage Saturday afternoon, March 15th. They were unattended.

Mr. and Mrs. Ellery Waite are entertaining the latter's parents, Mr. and Mrs. Wesley Pawson of St. Louis, Michigan for two or three weeks. Mr. and Mrs. Waite also entertained over the week end the latter's brother and wife, Mr. and Mrs. Ray Pawson also of St. Louis.

Fred Hoels left Wednesday of last week for Cadillac to manage a store of the Atlantic & Pacific Tea Company in that city. The local store of the above company has engaged Loton Willson of Boyne City as student manager and Walter Johnson of Roscommon as clerk.

Mrs. Arthur Skingley died at the home of her mother, Mrs. Fred Kuntz at Higgins Lake Tuesday evening. Mrs. Skingley had been ill with tuberculosis for several years and for the last two months her condition had been very serious. She leaves to mourn her loss, her husband and four small children, as well as her mother at Higgins Lake, her father and a sister of Chicago. Mrs. Skingley was Miss Sue Kershay of Higgins Lake previous to her marriage. Funeral services will be held from the Michigan Memorial church Friday afternoon.

Mr. and Mrs. Ernest Bissonette entertained friends at a St. Patrick's party at their home Saturday evening. The rooms were beautifully decorated in green and Mrs. Bissonette had some very interesting St. Patrick's games prepared for her guests which they enjoyed, prizes going to Axel Larson, William Laurent and Roy McEvers. Later in the evening dancing was enjoyed. A three-course lunch was served by Mrs. Bissonette assisted by Mrs. Oscar Smith and Mrs. William Laurent. The entire lunch was carried out in St. Patrick's colors. The guests spent a very pleasant evening.

Miss Margaret Fyvie spent the week end at her home in McMillan.

Miss Fern Chalker is enjoying several days visit with her aunt in Kalamazoo.

Shoes that were priced as high as \$7.00 now \$2.95 at Olson's Shoe Store.

Mr. and Mrs. Irwin Haskins spent Sunday at South Boardman where they visited Mrs. Haskins' sister and husband, Mr. and Mrs. Dean Hall.

There will be a dance at the Temple Theater Saturday evening, March 22nd. Be sure and come and bring your friends.

Mrs. Erna Wheeler of Detroit will arrive here about April 1st to assume the duties of county nurse for the Consolidated District Health fund. Miss Hoffa who is stationed here at present will be transferred to Kalamazoo county.

Mrs. Nels Corwin entertained several ladies at her home last Friday evening. The time was spent playing "500." Two tables of cards were in play with prizes going to Mrs. Anthony Trudeau and Mrs. Adler Jorgenson. For the luncheon, the table was attractive with St. Patrick favors for the guests.

Mrs. C. G. Clippert was hostess to the ladies of her Bridge club at Shoppenagons Inn Wednesday at one o'clock. The long table at which the ladies found their places was centered with a large bouquet of pink and white carnations in a silver basket. Three tables were filled for bridge at the home of the hostess, Mrs. H. A. Bauman held the high score.

Mrs. Frank Jennings was the first one to report having seen a robin this spring. Miss Eleanor Gorman and Mrs. Arthur Parker also had the privilege of seeing an early bird, they say. Certainly spring must be just around the corner. Some of the golf bugs too have been shining up their irons in anticipation of some early games.

The Consolidated District Health Dept. will continue the dental services of Dr. Bearach for several months longer. He has been progressing so well here it was decided that it will be advisable to complete the work in this county pretty thoroughly. It is planned to have the services of a dentist in each of the four counties of this district—Crawford, Kalamazoo, Missaukee and Roscommon.

About twenty-five men and women gathered at the home of Mr. and Mrs. Otto Failing at the Game Refuge last Saturday evening to honor Mr. and Mrs. Howard Bunker who were recently married. The guests enjoyed dancing until a late hour and a nice lunch which Mrs. Failing served made the party more enjoyable. Mrs. Bunker, who was formerly Mrs. Jessie Babbitt, is a sister of Mr. Failing.

Mrs. Russell Vallad entertained her Club at her home last Thursday afternoon. Mrs. Ernest Bissonette was the lucky winner of a lovely silk pillow top which was given by Mrs. Vallad as the penny prize. The ladies enjoyed sewing during the afternoon, after which the hostess served lunch, assisted by the committee. The club will meet with Mrs. Charles Harvey Thursday afternoon, March 20th.

We have a supply of Crawford County plat books at our office which we are offering for sale. These maps are very complete, showing the county divided into townships, the maps showing the ownership. All lakes, streams, railways, etc., are shown, making this plat book a very desirable and useful book to own. The price is 50 cents at our office or 55 cents by mail.

Several O. E. S. members of the Grayling Chapter, namely, Mrs. William McNeven, Mrs. Joe McLeod, Mrs. J. L. Martin, Mrs. Phillip Moran, and Mrs. Dan Woods, attended a celebration in Bay City Wednesday evening. The affair was given in honor of Mrs. Burchard who was first worthy matron of the Bay City Chapter of the Eastern Star in Bay City. The ladies report a very enjoyable time.

The Woman's Home Missionary Society met with Mrs. J. L. Martin Wednesday afternoon of last week. Mrs. Martin was assisted by Mrs. Charles Fehr. Miss Elizabeth Alexander had charge of the program and read the last chapter of their text book entitled "Personalizing the City" which was very interesting. The reading was followed by a talk by Rev. J. W. Greenwood which all enjoyed. Lunch was served to the group later in the afternoon. Mrs. Peter McNeven was an out-of-town guest.

This office is in receipt of an announcement of the opening of the A. M. Lewis drug store at 1214 North Saginaw street, Flint, that takes place today, March 20th. Recently Mr. Lewis' store suffered a fire that entirely wiped out his stock and the building. He is opening with a brand new equipment and stock of goods, in a new building. Mr. Lewis is an expert pharmacist and knows how to operate a good drug store. He is to be congratulated on getting business started again so quickly, and his friends here will wish him success.

James Reynolds, Sr. and Don Reynolds visited relatives in Flint over the week end. They were accompanied on their return to Grayling by Lamont Reynolds of Flint who will make his home with the Reynolds family. The young man is a grandson of Mr. and Mrs. Reynolds. He lost his parents, Mr. and Mrs. Howard Reynolds, during the influenza epidemic several years ago. Since that time, Lamont and his brother Russell have been making their home with their grandparents. Mr. and Mrs. Charles Morris of Flint but due to the latter's ill health she was unable to give the boys the attention they required. Lamont, who is fourteen years of age, has entered the eighth grade in the Grayling school and will remain here indefinitely.

Coach Cushman and his basketball team were guests of Mgr. George N. Olson Monday night enjoying the talkie "Gold Diggers of Broadway."

Mrs. Lucy Morency entertained a few friends at a St. Patrick's day party Monday evening. Dancing formed the entertainment of the evening.

Mrs. C. C. Wescott and son Hanson, wife and little daughter motored up from Ypsilanti and are guests of Mrs. J. K. Hanson and other relatives.

Dance at Beaver Creek Saturday night, March 22. Every Saturday from now on until further notice. Good music. Good time for everybody. John LaMotte.

Geo. Burke and W. H. Ketzbeck left Tuesday for Detroit where they will attend the O. E. S. convention. Mr. Burke will bring back a new car on his return to Grayling.

Several members of the O. E. S. and the Greenfield clubs on the South Branch river spent the week end at their respective club houses. The members of these clubs reside in Detroit.

Alton Jarmin, better known to his friends as "Brad" has been quite ill at his home. It has been necessary to engage two trained nurses, Misses Ellen Johnson and Nina Sorenson. He is getting along nicely.

Fred Paul of Lincoln Park and Will Taylor of Detroit returned Tuesday night to their homes after attending the funeral of Mrs. William F. Butler. The immediate relatives of the family returned to Detroit Wednesday afternoon.

Mr. Lawes of Otsego Lake and Mr. Edgar of Mancelona are both driving new Model "A" Ford Tudors and Mrs. Scott Stammer of Frederic is driving a new Model "A" Ford Town Sedan, all having purchased their cars from Geo. Burke.

Grayling school board has been notified that it will receive from the State a sum amounting to more than \$6,000, made possible by the passage of the Turner bill. This provides aid to the poorer school districts of the state thus to enable them to provide adequate schools for the children of such districts.

Axel Peterson, accompanied by his mother, Mrs. Andrew Peterson, spent Sunday at their home. Mrs. Peterson, who has been enjoying the winter months in Detroit with Axel, plans to return to Grayling in May. They motored to Detroit Sunday night, driving Mr. Peterson's car, which he had left in Grayling for the winter.

William Frazer arrived here Saturday to spend a few days with his father-in-law John Brockton.

Thomas Malloy of Hibbing, Minn., spent a few days last week at the home of his brother Frank Malloy.

Frank Brady of Saginaw and son Donald were guests of the John Brady and J. B. Callahan families Sunday.

Miss Helen Darling of Detroit spent the week end here with her parents, Mr. and Mrs. Geo. H. Darling.

Remember the dance at the Temple Theater next Saturday evening. Good music and fun for all.

Mr. and Mrs. Marlin Maxwell are the proud parents of a baby girl born March 15th. She will be called Martha Elizabeth.

W. J. Olson of Detroit is spending a few days visiting at the home of his parents, Mr. and Mrs. Nels P. Olson and family.

Don't forget the dance and the good time to be had at the Temple Theater Saturday night, March 22nd. Be sure and come.

I. K. Gunther of Frederic was appointed township clerk by the township board of that place to succeed Mrs. Annette Stannard.

NOTICE

My wife, Cecil LaChapelle, having left me of her own free will, I will not be responsible for any debts contracted by her after this date.

Dated March 13, 1930.

Alvin N. LaChapelle.

WOMAN'S CLUB NOTES

In keeping with the spirit of St. Patrick's day the program presented at the meeting of the Woman's Club followed the theme of Irish song and legend. The various numbers were:

Duet—"When Irish Eyes Are Smiling,"—Miss Lindstrom and Miss McAllister.

Saxophone solo—"The Minstrel Boy"—Miss Dorr.

History of St. Patrick's Day—Miss Shambaugh.

Trio—"Killarney"—Miss McAllister, Mrs. Gottho and Miss Lindstrom.

Solo—"The Last Rose of Summer"—Miss McAllister.

Duet—"My Wild Irish Rose"—Miss Arnold and Miss Hermann.

An appropriate contest closed the meeting.

The two meetings of the club scheduled for March 24 and March 31 are to be combined on the night of March 31 because of the fact that next week is to be the time of spring vacation in the school.

In Memoriam

MRS. MARION SUTTON

In loving memory of our dear daughter and sister who died a year ago today, March 13, 1929.

In our heart your memory lingers, Always tender, fond and true; There's not a day dear Marion That we do not think of you.

Mr. and Mrs. Maguire Dupree and Family.

Interesting Events In Grayling 23 Years Ago

INTERESTING ITEMS OF NEWS GATHERED FROM THE FILES
OF THE AVALANCHE OF 23 YEARS AGO.

Thursday, March 21, 1917

Born, March 12, to Mr. and Mrs. Henry Stephan, a son.

Our mechanics are beginning to expand their muscles—and prices—in anticipation of a big boom in building.

A nice sugar snow of four inches covered the earth here Tuesday morning but was nearly gone by night.

The saw mill at Lovells stopped very suddenly Friday morning, when the engine broke, but no one was hurt.

A. J. Stilwell has sold his livery stable to Henry Bates, which changes the firm name to Bates & Bechraft. It is a good property.

The bill forbidding the killing of deer for five years in Crawford, Oscoda, and Montmorency counties passed the house last week and will probably become a law.

The new drop curtain at the opera house is in place and quite satisfactory to the management. It will be a change at any event, the advertising cards being a new feature here.

The trial of Frank L. Young, Monday, before Justice Niederer, for malicious injury to a dwelling, resulted in a verdict of guilty and a sentence of ninety days in the Detroit house of correction.

Hubbard Head of South Branch was in town Saturday the first time this winter. He says caring for forty head of the best young stock in the country has kept him out of mischief. He is growing fat and more jolly than ever.

On account of the repairs being incomplete in the Danish Lutheran church, there will be no service at the

church next Sunday. It is hoped that it will be ready for communion service the next Thursday evening at 7:30.

The James McMillan Memorial Association is now ready to receive subscriptions for the erection of a fitting memorial to Michigan's last Senator. Amounts from one dollar up will be received at this office and forwarded to Hon. Peter White, Treasurer of the association. All subscribers will receive an engraved certificate of membership in the association.

Miss Katherine Clark gave a birthday party in honor of her 5th birthday, March 19. The little ones had a very pleasant time.

Last Tuesday evening a party of young girls gave a farewell party in honor of Miss Anna Rasmussen, who will leave for her future home in Washington the last of the week. All of those present report an enjoyable time.

Frank Bell stopped on his way home from Detroit and Lansing, where he has been in the interest of certain mining legislation, long enough to shake hands with a few of his old friends here. His appearance indicates the prosperity which we are glad is his and that he has reached a high place with the bar in the Upper Peninsula.

The formal dedication of the hall of the Grayling Association of Men and Boys, last week Wednesday evening, was a pleasant and interesting occasion and augurs well for their success. The hall was crowded, exhibiting the interest of our people in the work proposed. The Citizens band and Prof. Grawn with his mandolin, enlivened the meeting with excellent music.

How Women Lose Fat in England

GAIN PHYSICAL CHARM

How would you like to lose 15 pounds of fat in a month and at the same time increase your energy and improve your health?

How would you like to lose unhealthy fat that you don't need and don't want and at the same time feel better than you have for years?

How would you like to lose your double chin and your prominent abdomen and at the same time make your skin so clean and clear that it will compel admiration?

How would you like to get your weight down to normal and at the same time develop that urge for activity that makes work a pleasure and also gain in ambition and keenness of mind?

Get on the scales today and see how much you weigh—then get an 85 cent bottle of Kruschen Salts, which will last you for 4 weeks. Take one-half teaspoonful every morning in a glass of hot water and when you have finished the first bottle weigh yourself again.

Now you can laugh at the people who pay hundreds of dollars to lose a few pounds of fat—now you will know the pleasant way to lose unwanted fat and you'll also know that the 6 vitalizing salts of Kruschen Salts that your blood, nerves and glands must have to function properly—have presented you with glorious health.

After that you'll want to walk around and say to your friends: "One 85 cent bottle of Kruschen Salts is worth one hundred dollars of any fat person's money!"

Leading druggists America over sell Kruschen Salts—you can always get it at Mac & Gidley's Drug Store.

THE BATTLESHIP AS A SCHOOL

According to Dr. Frank Crane, noted physician and writer, the thing that most impressed him while on a visit to an American man-of-war, was not the big guns nor the enormous power developed, but rather the educational opportunities enjoyed by our bluejackets. Dr. Crane learned that fifty-five trades, as well as many academic courses were being studied, regular classes being formed, with officers acting as instructors, making the ship not only a magnificent fighting machine but, in effect, a military college, the bluejacket's time being about evenly divided between work, play, study and sleep.

Inside Information

Group all early-maturing crops together in the truck garden and immediately after harvest turn down or remove the plan remains and plant a different crop in their place.

Cloths or pads for straining milk should be used only once as it is difficult to sterilize them after use. They may be purchased from any dairy supply house at a reasonable cost.

Spring greens that grow wild will soon be available for the trouble of picking them. Dandelion, poke, mustard, land cress, and various others are valuable in the diet and appetizing as a change.

It is a help in training a small child to dress himself, if the fastenings of his clothes are always found in the same place. Buttons for trousers should be placed where he can reach them easily and in the same place on all his trousers.

To clean upholstered furniture, use either a vacuum cleaner or a brush. A soft brush is best for velvet and velour, a stiffer brush for tapestry, and another stronger, firm material. When convenient, take upholstered furniture out of doors occasionally and beat with a flat carpet beater.

For variety in menus in which pork is the main dish, good flavors are cabbage, celery, cymbalings, green peppers, parsnips, sweet potatoes, apples, and pineapple. These may be cooked in any of the ways you are accustomed to serving them, and used singly or in combination.

The vogue for tomato cocktails, made of the juice of canned tomato, seasoned with celery, onion, horseradish, and salt and pepper, is excellent because it adds to the day's supply of three valuable vitamins—A, B, and C. These vitamins are retained by tomatoes even when they are cooked or canned, and the inclusion of tomato in the diet is recommended by all nutrition specialists.

Air for Apples

Assist stored apples to breathe correctly by furnishing plenty of air. Proper ventilation will aid in keeping the fruit longer in storage. If the humidity is not right the floors should be sprayed.

Even Turkey Has Beauty Contests

Beauty contest at the dedication of Turkey under the role of... (text is partially obscured and difficult to read, but mentions a beauty contest and prizes).

Smart Street Dress

A smart crêpe de chine street dress for the spring, featuring a full skirt and a fitted bodice. The red and blue scarf collar completes the dress.

SPEARING SEASON OPENS APRIL 1ST

The spearing season for non-game fish in non-trout rivers and streams of Michigan will open April 1.

"During the period from April 1 to May 31, spearing with or without the use of an artificial or jack light, in all non-trout rivers and streams will be permitted for the catching of non-game fish including bullheads, carp, catfish, cisco, dogfish, garfish, mullet, great northern pike, grass pike or pickerel, pilotfish, redhorse, sheepshead, smelt, suckers and whitefish," says the 1930 edition of the Department of Conservation's Digest of Fish Laws.

All fishing will cease April 1 in all inland lakes of the state until June 5, except as designated pike and trout lakes in which fishing will be permitted after May 1 for perch, wall-eyed pike, grass pike, muskellunge and non-game fish, and all species of trout. The limit catch of pike is five per day. Each pike must be at least 14 inches long.

The 1930 edition of the Fish Law Digest is being distributed this week to all conservation officers, county clerks, license agencies and others interested. The digest contains a list of all designated pike and trout lakes, and designated trout streams.

Specialties

It is impossible for a man who attempts many things to do them all well.—Xenophon (4801-3601 B. C.)

COMPARE VALUES BEFORE YOU BUY AN AUTOMOBILE

**Low charges for distribution of the new Ford
save you at least \$50 to \$75 in addition to
the many savings in making the car**

THESE are days when every dollar counts. The period of reckless spending is over. People are going back to the good old-fashioned principles of thrift and economy. Value is again being carefully considered.

Nowhere is this more important than in the selection of an automobile. For the purchase of a car represents a considerable investment. It should not be decided on hurriedly, but only after analyzing every important factor that concerns cost, value and performance. The time to do this is before buying—not afterward when it is too late.

ON THE basis of cost, performance and the actual comparative worth of every part, the new Ford is a value far above the price you pay. It is made of better materials and with greater care and accuracy because of the recognized efficiency and economy of Ford manufacturing methods.

The value of these methods is known and understood by millions of people. It is not generally realized, however, that these same principles of efficiency and economy are applied also to every step in the distribution of the Ford car. The low cost of selling, financing time payments, etc., means a direct saving to you of at least \$50 to \$75 in addition to the money saved by Ford economies in making the car. Here are three reasons why this is so.

(1) The Ford dealer does business on a smaller margin of profit because of the greater number of

cars he sells. His discount or commission is the lowest of any automobile dealer. The difference in your favor, ranging from 25% to nearly 50%, comes right off the price you pay for the car.

(2) The Ford charges for financing are low.

(3) No expensive extra equipment is needed when you buy a Ford. The car leaves the factory ready for use. The f.o.b. price includes a Triplex shatter-proof glass windshield and an extra steel-spoke wheel, in addition to four Houdaille double-acting shock absorbers and fully enclosed four-wheel brakes. Any accessories you may wish for your individual taste are sold considerably below the usual prices. None of these charges for selling, financing or accessories is marked up or increased to cover a high trade-in allowance on a used car.

Get all the facts, therefore, before you buy and figure out just what you are getting for your automobile dollars. Go beyond the f.o.b. price and find out how much more you pay the dealer than the dealer pays at the factory. Analyze the used-car allowance. Compare all charges—item for item—value for value.

WHEN you do this you will have a new appreciation of what the Ford Motor Company and Ford dealers are doing to keep down the cost of Ford cars. You will also know why it is possible to put so much real value into the new Ford and still retain the low price. The money you pay goes for value in the car. It is not wasted in excessive costs in manufacturing or selling.
